Education

Vellore Institute of Technology, Vellore

B.Tech in Computer Science and Engineering, CGPA: 8.28

2023 – 2027

Vellore, Tamil Nadu

KR Mangalam World School

Class XII: 88% | Class X: 96%

2021 – 2023

New Delhi, India

Experience

AI/ML & Software Intern

May 2026 – Jul 2026

Emiac Technologies

Jaipur, Rajasthan, India

- Engineered a deterministic evaluation pipeline for client SEO workflows, improving keyword coverage from **38% to 100%** across production content batches.
- Designed a **5-agent LangGraph workflow** covering keyword clustering, source retrieval, and drafting, cutting down manual research turnaround time by **70%**.
- Formulated strict validation rubrics across **15 evaluation parameters** alongside content strategists, aligning model outputs with search intent to reduce manual review cycles.

Projects

HELM – AI Finance Copilot

2026

Python, FastAPI, LangGraph, React, PostgreSQL, Redis

- Developed an autonomous copilot using LangGraph and FastAPI that translates natural language prompts into parameterized database queries across **12 financial metrics**.
- Integrated Redis caching for session persistence and query memoization, maintaining sub-second response times while streaming live cash-flow forecasts to the dashboard.

PharmAssist – AI Quality Management System

2026

FastAPI, LangGraph, LLMs, PostgreSQL, Docker, PyMuPDF

- Orchestrated a **10-node LangGraph execution graph** that triages and risk-scores incoming pharmaceutical complaints, replacing a multi-day manual review with an automated 800ms pipeline.
- Constructed an asynchronous document ingestion pipeline using OCR and string similarity matching at a **0.80 threshold** to eliminate duplicate tickets and produce validated JSON schemas.

ShowRush – Full-Stack Event & Ticket Booking Platform

2026

React, TypeScript, Node.js, Express.js, PostgreSQL, Redis, Socket.IO

- Implemented transactional row-level locking (**SELECT ... FOR UPDATE**) in PostgreSQL to maintain absolute ACID compliance and prevent double-booking across 500 concurrent checkout attempts.
- Paired Socket.IO state broadcasts with **10-minute Redis TTL expiration keys**, instantly unlocking expired holds and reallocating tickets to waiting users.

Technical Skills

Languages: Python, C++, Java, JavaScript, TypeScript, SQL

AI/ML & Analytics: LangGraph, LLMs, Scikit-learn, SHAP, PyTorch, Pandas, NumPy, Data Modeling

Backend & Distributed Systems: FastAPI, Node.js, Express.js, RESTful APIs, WebSockets, Microservices

Databases & Caching: PostgreSQL (ACID, Row-Level Locking), Redis (TTL, Caching), MongoDB

Cloud, DevOps & Tools: AWS, Docker, Git, CI/CD Pipelines, Postman, Linux

Leadership & Extracurricular

IEEE Computer Society Chapter, VIT

Mar 2025 – Jan 2026

Core Committee Member – Management & Events

Vellore, Tamil Nadu

- Spearheaded end-to-end logistics, schedule orchestration, and operational workflows for flagship technical fests and multi-track hackathons engaging **500+ participants**.
- Curated high-conversion publicity campaigns by designing official event posters, banner assets, and **social media promotional mockups** that boosted cross-campus registrations.

Mozilla Firefox Club, VIT

Mar 2025 – Apr 2026

Core Committee Member – Operations & Design

Vellore, Tamil Nadu

- Coordinated cross-functional teams to organize campus-wide open-source meetups, speaker sessions, and coding bootcamps, ensuring smooth venue coordination and crowd management.
- Designed brand-aligned **Instagram layouts, digital banners, and interactive story teasers** using Figma to amplify club outreach and drive active participant attendance.

Certifications

- MERN Stack Developer** – Ethnus
- C++ Programming Basics**
- Cyber Security Training** – Hackershala
- Python – 100 Days of Code** – Udemy
